PROFILE

I am a qualified and professional web developer with five years of experience in database administration and website design. Strong creative and analytical skills. Team player with an eye for detail.

PROJECTS

IOT PROJECT (DIY ROBOTIC CAR)

Aptech Vision 2023

- Developed an autonomous robotic car equipped with advanced distance comparison capabilities and real-time data transmission to Firebase database using a vibration sensor.

PLANT PALACE E-COMMERCE WEBSITE

Techwiz 4 World wide web Competition

- Developed a user-friendly and visually appealing e-commerce website specializing in the sale of diverse plant species, enabling customers to conveniently purchase plants and access detailed information from the comfort of their homes.

METRIC CONVERSION WEBSITE

E-Project of 1st Semester

- Developed an interactive and versatile website dedicated to facilitating unit conversions across a wide array of metrics including length, area, volume, currency, and more. This project was completed as part of my first-semester e-project, showcasing proficiency in web development and practical application of conversion algorithms.
